This section administers community college basic aid and equalization apportionments to community college districts, and gathers and analyzes student data from the 69 community college districts for use in equitable distribution of state support funds to districts. It also assists districts in meeting requirements under law to include certain nondistrict territory in community college districts by 1975. The section coordinates local plans and reviews and recommends on them to the Board of Governors. The financial services section in addition reviews and approves district claims for construction project reimbursements and provides a considerable amount of the input data for the information systems.

Objectives

1. To determine state apportionments in basic aid and equalization programs, to advise on proposed changes in funding for community colleges, and to administer payment schedules under the Community College Construction Act and occupational education appropriations for construction.

2. To help fulfill a legislative requirement to include nondistrict territory into districts, by coordinating and assisting local areas and county committees on school district organization, by providing information for local determination, and by representing the agency in public hearings on organization.

3. To implement program budgeting and accounting in community college districts, and to help districts

BOARD OF GOVERNORS OF THE CALIFORNIA COMMUNITY COLLEGES—Continued

Financial Services Section—Continued

implement a common budget structure and classification of activities.

4. To cooperate with the Audits Division, Department of Finance, in conducting audits of attendance accounting procedures in community college districts as they relate to state aid apportionments.

Credentials Section

Need

This section operates under the direction of the chief, credential section, and administers the receipt of applications for community college credentials, the processing of application documents, and the issuing of credentials. The credential section processes applications at a sustained volume with yearly increases since its start three years earlier. The operation has been self-supporting from its inception. An accumulated surplus of $225,000 as of June 30, 1973 was transferred into the General Fund, pursuant to Section 11.5 of the Budget Act of 1973.

Objectives

To administer the community college credent program, including processing, evaluating and reco mending on issuing, denying, revoking or reinstati credentials, and to recommend administrative code legislative revisions affecting community college cr dential programs.

Input	1972–73	1973–74	1974–7

Academic Affairs Section

Need

This section approves educational master plans and programs for community colleges and provides guidance to the colleges in developing and implementing quality instructional programs to meet the wide range of needs of student and communities throughout the state. The academic affairs section also coordinates with other sectors of California public higher education on administration and transfer of community college students into four-year institutions, reviews and recommends on adult classes eligible for state apportionment, devises improved methods of instruction, and assists regional and state level planning by coordinating continuing education and special education programs.

Objectives

1. To review and recommend on educational maste plans and programs submitted by community college to recommend on approval of courses outside previ ously approved educational programs, and to develo a state educational master plan for community col leges based on campus and district plans.

2. To establish and upgrade standards, criteria an procedures for approving courses, programs and com munity college master plans.

3. To provide leadership in intersegmental articu lation of programs and courses for efficient transfer o students from community colleges to four-year insti tutions.

4. To review and approve courses and programs fo

BOARD OF GOVERNORS OF THE CALIFORNIA COMMUNITY COLLEGES—Continued

II. PROGRAMS AND OPERATIONS—Continued

Academic Affairs Section—Continued

adults and students with handicaps, as needed for state-funding approval, and to work with community colleges to recommend policies and guidelines for the Board of Governors and the Legislature.

5. To assist community colleges in developing continuing education master plans and districts integrating locally funded community service programs with continuing and adult education, and to establish appropriate delineation and articulation of adult continuing education with secondary education programs.

6. To approve programs submitted by community college districts for coordinated instruction systems, to review program evaluations for coordinated instruction systems, to disseminate information on new methods of instruction through personnel trained by this unit, to work with coordinated instruction systems, and to assist community college staff training with television, radio and other coordinated instruction systems.

Input	1972–73	1973–74	1974–75
Expenditures	$195,022	$192,918	$244,155
Man-years	9.4	7.4	9.4

Facilities Planning Section

Need

This section maintains 10-year capital outlay programs for the 97 community colleges and 69 districts, updating programs yearly. Most of its work is mandated by law, with the section reviewing and assisting in programming and planning construction projects as well as the 10-year plans.

The facilities planning section must prepare annual capital outlay budgets for presentation to the Department of Finance and the Legislature, approve projects for state funding, approve new campus site proposals, and annually update facilities inventories for all community colleges.

Objectives

1. To evaluate 10-year construction plans of community college districts and recommend approvals, to coordinate construction projects with districts and the Department of Finance, the Legislature, and State Public Works Board.

2. To assist districts and campuses in planning, organizing and supervising capital outlay programs and funding, to evaluate capital outlay projects, and to study utilization of campus facilities.

3. To prepare and recommend an annual capital outlay budget for California Community Colleges for inclusion in the Governor's Budget.

4. To approve sites for new community college campuses and project annual major capital outlay needs for community colleges, to establish criteria for priorities, and evaluate district project planning guides for the capital outlay budget.

5. To develop and coordinate information systems for community college physical facilities, including procedures for the most effective use of resources, and to evaluate applications for construction projects under the federal Vocational Education Act, ensuring project compliance with federal regulations.

6. To conduct an annual inventory of district physical facilities and to prepare a handbook of instructions for submitting projects and 10-year plans.

7. To assess the feasibility of adapting new systems approaches to community college construction techniques and to coordinate community college district planning and campus development with state and federal agencies, emphasizing educational needs as well as environmental impact.

Input	1972–73	1973–74	1974–75
Expenditures	$233,469	$245,968	$259,408
Man-years	10.4	9.9	10.9

Student Personnel Services Section

The student personnel services section has two major functions: to plan and direct staff efforts in developing and administering student personnel programs; and to supervise the use of state funds allocated to community colleges under Extended Opportunity Programs and Services (EOPS). The section evaluates EOPS project applications from districts and recommends on approval to the Board of Governors, coordinates with districts and campuses on administration of EOPS, and reviews college EOPS three-year plans, updated annually, as required by the Administrative Code.

Need

This function involves planning and directing student personnel programs, including counseling and other support services. Community colleges in California historically have been committed to providing those services keyed to the interests, needs and capabilities of their students.

Objectives

1. To improve career counseling in community colleges through workshops covering employment conditions and sharing techniques and resources, to assist districts developing criteria for evaluating personnel and minimal services needed for community college student personnel programs.

BOARD OF GOVERNORS OF THE CALIFORNIA COMMUNITY COLLEGES—Continued

II. PROGRAMS AND OPERATIONS—Continued

Student Personnel Services Section—Continued

2. To examine alternatives for additional financing for necessary staff and facilities for student personnel programs, to ensure articulation of transfer students by working with other segments of higher education.

Input	1972–73	1973–74	1974–7
Expenditures	$4,984,836	$6,331,521	$6,373,1
Man-years	6	7.1	8

Extended Opportunity Programs and Services

Need

California Community Colleges, in part because of their open-door policy and also because of their geographical accessibility to students, draw a large proportion of those needing help under programs for the disadvantaged. These include community college EOPS and college opportunity grants, federally funded Vocational Education Act, work-study programs, educational opportunity grants, and locally funded district programs for disadvantaged students.

Objectives

1. To identify potential disadvantaged community college students. and, with necessary financial aid and services, to help them acquire the training and education they need to succeed in college and later as productive employees.
2. To help disadvantaged students reach full potential and build persistence and grade-point averages sufficiently to enable them to compete equally with others for jobs or for transfer to four-year institutions.
3. To add to leadership skills of campus EOPS staff through inservice training.
4. To assess requirements for state funding of campus EOPS and recommend funding levels, to process allocations and monitor programs for maximum efficiency.
5. To assist campuses in coordinating their EOP with federally funded programs for disadvantage students, with special emphasis on occupational educ tion, to aid campuses in developing goals for EOP projects, to evaluate strengths and weaknesses of suc programs, to recommend on regulations, and to pr vide EOPS data to the Board of Governors, the a ministration and Legislature.

General Description

Even though poverty is the outstanding proble of most disadvantaged students, grants alone are n the only solution. Campus-oriented services to st dents disadvantaged because of language, social an cultural backgrounds are also important.

Community colleges develop EOPS projects throug a variety of economic resources, including distric state, federal and private funds. The average expend ture level of community college EOPS serving 19,45 students was $163 per student in 1971–72. Progra expenditures that year were 62 percent for financia aid, 29 percent for educational assistance, and 9 pe cent for administration. In the belief that there is greater proportional need for educational assistance the program's expenditures are approaching distribu tion of 49 percent for financial assistance, 40 percen for educational assistance, and 11 percent for admin istration. The state's funding for 1973–74 was 27 pe cent more than for the previous year and provide program services for 24,142 students, based on an av erage estimated expenditure level of $250 per student The 1974–75 budget maintains this level.

EOPS Budget Projections

Occupational Education Unit

The occupational education unit is headed by an assistant chancellor and has program planning and operations sections, headed by deans. The assistant chancellor reports to the vice chancellor, programs and operations.

The occupational education unit recommends on community college courses and programs funded by the federal Vocational Education Act. The unit plans, coordinates and services occupational and technical programs in the colleges. Under state mandate the

BOARD OF GOVERNORS OF THE CALIFORNIA COMMUNITY COLLEGES—Continued

II. PROGRAMS AND OPERATIONS—Continued

Occupational Education Unit—Continued

division also approves district and statewide plans and programs for community colleges. The staff assists districts with in-service training, maintains liaison with business and industry on training needed by job applicants coming from community colleges, produces publications dealing with curriculum material and conducts evaluations for improving occupational programs in special curriculum areas.

The staff in this unit also recommends on allocation of federal funds to districts on an entitlement basis and provides services to representatives of the Board of Governors sitting on the Joint Committee on Vocational Education, which acts on proposals from the Board of Governors and from the State Board of Education. The unit also is involved with joint planning at regional and state levels.

Program Planning Section

Need

The program planning section is responsible for continuing planning in occupational education. The state plan for vocational education requires annual short-term and long-term plan proposals to be submitted by community colleges for review and funding recommendations by the staff. These are closely coordinated with planning groups called for by legislation and with voluntary planning groups such as area planning committees, the Joint Occupational Preparation Task Force, and the State Advisory Council on Vocational Education and Technical Training.

The staff also assists community college districts developing occupational education curriculum material and in-service training for occupational education personnel. It must approve all new occupational education programs on a continuing basis and annually approve community college district occupational education master plan five-year projections.

Objectives

1. To coordinate with community college districts on plans and evaluations, to prepare annually the community college portion of the state plan for vocational education, and to mesh the program planning section's effort with that in the academic, student affairs and facilities planning sections.
2. To develop pilot and model programs, to recommend approval for new occupational programs and master plans, and to prepare occupational education plans.
3. To help community college districts raise campus staff capabilities with in-service training, to develop new curriculum material and educational guides, to work with business, industry and labor on training for job opportunities, and to do research and survey projects.

Input	1972–73	1973–74	1974–75
Expenditures	$318,055	$365,412	$368,774
Man-years	13.6	15	15

Program Operations Section

Need

Community colleges need staff consultation and coordination from this section for occupational education programs administered under the federal Vocational Education Act and the California state plan for vocational education. Specialists in the section consult with community college districts and campuses on project proposals, reports and regulations, as well as on program reviews, program compliance, evaluations and conferences.

Objectives

1. To lead and coordinate community college districts developing and approving occupational education programs.
2. To review annually occupational programs in the colleges, based on standards and requirements in the state plan for vocational education, and to review district occupational education plans.
3. To review and recommend on district applications and projects for funding under the federal Vocational Education Act, and to aid districts with reports and claims under that act and the state plan for vocational education.
4. To coordinate with staff, business, industry, labor and the colleges on training needs in occupational education, including new and emerging fields of opportunity, to gear programs with employment markets, and to foster in-service training programs for occupational education personnel on campuses.
5. To provide articulation and liaison with other segments of education, and to process applications, reports and claims from community colleges, as called for by the state plan for vocational education and the federal Vocational Education Act.

Input	1972–73	1973–74	1974–75

BOARD OF GOVERNORS OF THE CALIFORNIA COMMUNITY COLLEGES—Continued

III. COMMUNITY COLLEGE FINANCE AND STATE AID TO COMMUNITY COLLEGE DISTRICTS

The California Legislature annually appropriates funds for the support of public community colleges in the state. Community college districts do not have sufficient local financial resources to fully finance an educational foundation program for all the students within the district. To bring financial support up the standards of the foundation program, the st provides additional financial aid. This aid is app tioned in accordance with established formulas and distributed to community college districts.

	1972–73	1973–74	1974–75
Assistance to new community colleges	—	($326,370)	$549,173
Apportionment of state aid	($186,260,262)	(257,637,500)	306,780,000
Total Local Assistance *(General Fund)*	($186,260,262)	($257,963,870)	$307,329,173

A. Assistance to New Community Colleges

Education Code Section 20211 provides for funds to assist new community colleges. Proposed 1974–75 expenditures are $549,173, which will be used to pay tuition billings for students from three territor being annexed that year to community college d tricts.

B. Administration of State Aid

The administration of state aid element involves data collection, data processing, and the preparation of a number of reports, including the Controller's cost report, the adult cost report, and the special education cost report.

Need

By statute and by administrative agreement between the State Controller and the Chancellor's Office, California Community Colleges, financial data must be collected from the community college districts, processed and published as the Controller's cost report (CCAF-301 and CCAF-311). To supplement the Controller's cost report, a special financial report, adult cost report (CCAF-305), must be prepared and published. This report is prepared to separate education costs for regular students from those of adults, so as to provide decisionmakers with data for evaluating foundation allowances against actual expenditures.

Education Code Section 18102.10 requires that a comparision be made of the costs incurred by school districts for each funded program in the physically handicapped, mentally retarded, and educationally handicapped areas. These data are required for evaluating and recommending proposals for special education financing.

The federal government requires that an annu report (Form 2350-6) be made to certify the total come and expenditures for ESEA funds allocati In addition, the state must process federal forms lating to Public Law 874 funds allocation.

Each year the total community college finance p ture is reviewed prior to the beginning of the leg lative session, and recommendations formulated the Chancellor's Office are submitted to the Board Governors, California Community Colleges. Aft board approval, these recommendations are placed bill form and submitted to the Legislature. As t legislative process progresses, special reports are quired. Other reporting requirements include coll tion of data on percent of current expense incurr for classroom teachers (Education Code Secti 17504). Financial data collected become part the Controller's cost report, which is a basic revi document for future allocations.

Objectives

The objectives of the administration of state a components are to receive, record, interpret, proce and prepare the necessary reports for publication required by the Education Code and the operation requirements of various programs.

C. Apportionment of State Aid

Enactment of SB 677 (Chapter 940, Statutes of 1973) has, beginning in fiscal year 1974–75 transferred to the Board of Governors of the California Community Colleges the responsibility for both the administration and apportionment of state aid to community college districts.

The program element includes the preparation of reports and the collection of a wide range of data from California Community Colleges as required.

The state participates with local jurisdictions in financing the operation of community colleges through several state subventions. The largest of these is made through transfers of funds from the General Fund to the State School Fund for apportionment to community college districts.

The major categories of the apportionment syste are: (1) basic and equalization aid, and (2) speci education. The apportionment system is predicate upon the State Foundation Program which guarante every student in the public school system an adequa level of support.

The Foundation Program is composed of (1) bas aid, which is required by the State Constitution; (2 district aid which represents local effort; and (3 equalization aid, which is provided by the state t assist less wealthy school districts to achieve the lev of the foundation program. The distribution of com munity college aid for 1972–73 is shown in Figure below.

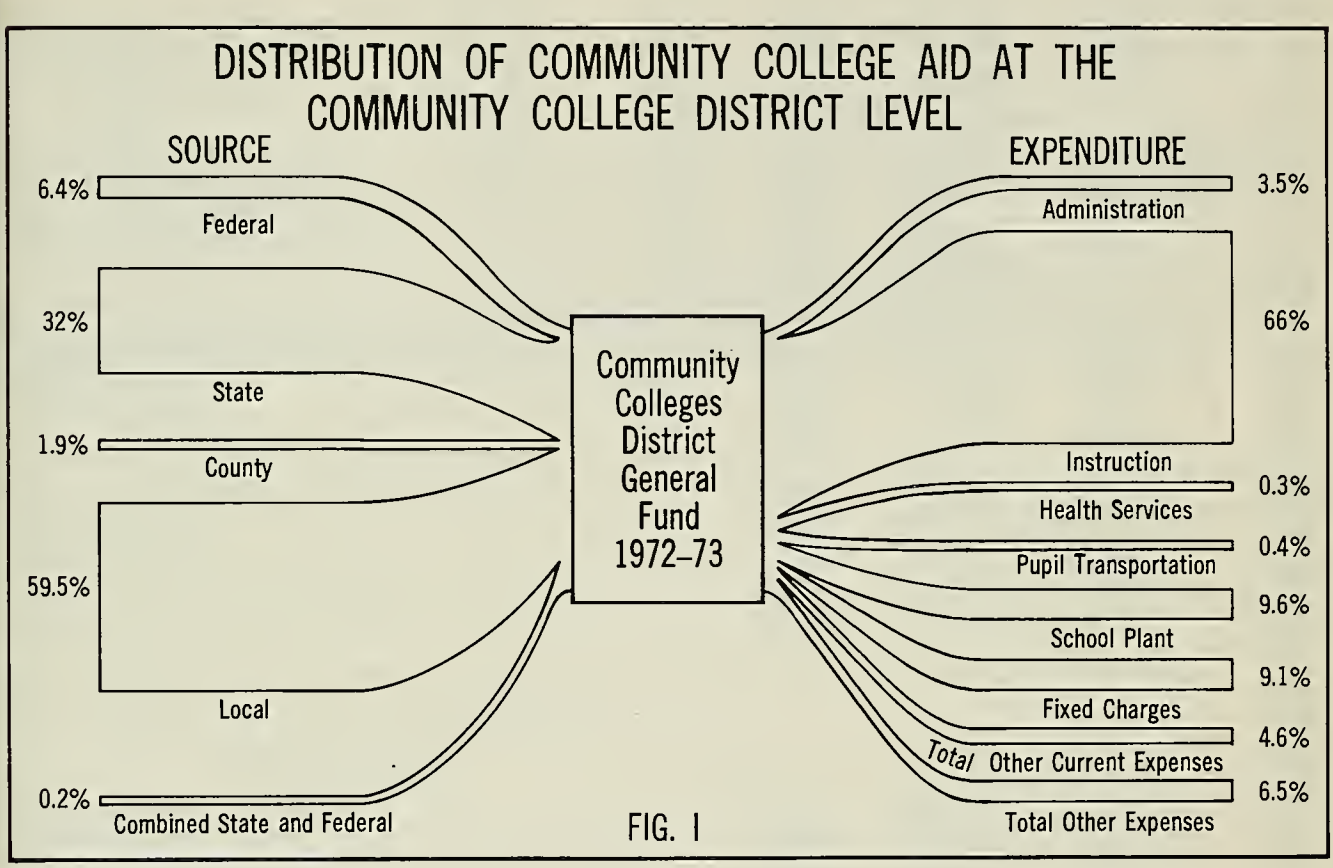

FIG. I

The apportionment of funds is based upon the average daily attendance (a.d.a.) of students in each community college district. As indicated in Figure II, below, the a.d.a. in community colleges continues to increase as the wave of student population that entered primary school a decade ago now moves into the community colleges.

The enactment of SB 6 (Chapter 209, Statutes of 1973) during the 1973 legislative session provided the largest single increase ever given the Community College Foundation Program, providing an additional $66 million new state funds in 1973–74 for community college programs and property tax relief. In addition, SB 6 guarantees that the Foundation Program level will continue to be adequate in future years by providing for the first time a statutory annual cost-of-living increase in the State Foundation Program. The annual Foundation Program increases will make it possible for community college districts to keep up with the consumer price index and not have to reduce their educational services as a result of inflation.

Largely as a result of the annual cost-of-living adjustment in the Community College Foundation Program, State School Fund apportionments will total approximately $307 million in 1974–75, an increase of $47 million over that provided in 1973–74.

GENERAL ANALYSIS

There are 98 community colleges in operation, administered by 69 separate governing districts, serving the entire State of California from Eureka and Weed in the north to Chula Vista and Imperial in the south. Five additional community colleges are in process of organization and development.

California public community colleges by law have three principal purposes: (1) offering transfer courses; (2) providing vocational training; and (3) providing general education. Transfer courses are similar and equivalent to the standard lower division (freshman and sophomore) offering of the public and private universities and colleges. In addition, each community college attempts to satisfy the continuing and rapidly changing educational needs which are particular to each community by offering vocational-technical programs, continuing adult education, community enrichment programs, and guidance and counseling services.

In recognition of the continuing need for state support of the Community College Capital Outlay Programs, the 1971 Legislature enacted the Community College Construction Bond Act of 1972. This act, which provides $160 million through the issuance of State General Obligation Bonds for community college capital outlay projects, was approved by the electorate in November 1972. The 1972–73 and 1973–74 Budget Acts provided $44,037,401 and $55,224,100 respectively from the State Construction Program Fund to the Board of Governors of the California Community Colleges. Funds, therefore, are expected to be available for capital outlay purposes for the current 1974–75 budget year with the remaining available for a portion of the projected 1975–76 budget year.

Included in the 1974–75 budget are 45 districts with a proposed capital outlay program of $88,301,008. Of this amount, a state appropriation of $44,054,600 is to be provided from the Community College Construction Program Bond Act of 1972. The remaining matching funds, in the amount of $44,246,408, are to be district matching funds.

The following constitutes a breakdown of the dollar amounts and percentages of state funds for the types of projects proposed:

Land Acquisition

Land acquisition totaling $1,714,000 for new and existing campus for one district is included and represents 3.9 percent of the total 1974–75 Capital Outlay Program.

Site Development, Utilities and Physical Plant

Site development projects totaling $2,618,500, including off-site development, utilities, and physical plant facilities, are included for 11 districts and represents 5.9 percent of the total 1974–75 Capital Outlay Program.

General Academic and Lecture Facilities

General academic and lecture facilities projects totaling $10,438,400 are included for 23 districts; this represents 23.7 percent of the total 1974–75 Capital Outlay Program.

Sciance and Vocational Tachnology Facilities

Science and vocational technology programs have been expanding rapidly in all districts. Included in this proposed program are additional facilities for 26 districts, totaling $15,582,300 which represents 35.4 percent of the total 1974–75 Capital Outlay Program.

Libraries and Rasources Materials Cantars

The funds for the construction of new facilities and for the expansion of existing library and resource material centers in 11 districts totals $2,600,800; this represents 5.9 percent of the total 1974–75 Capital Outlay Program.

Physical Education Facilities

Physical education projects, totaling $6,220,100 and representing 14.1 percent of the total 1974–75 Capital Outlay Program, are included for 17 districts.

Other Projects

A total of $4,880,500 has been included for administration, cafeteria, drama-theater, warehouse and maintenance facilities for 17 districts. This balance of projects represents 11.1 percent of the 1974–75 Capital Outlay Program.

MAJOR PROJECTS

Allan Hancock Community College District	–	$58,273	**$35,700**
Allan Hancock College:			
Library addition	–	–	*35,700*[w]
Funds for working drawings are requested for 1974–75. This project will provide library facilities consisting of study areas, carrel spaces, stack areas and services. It will also contain audio-visual general and service areas and a television studio. The project includes remodeling 11,000 assignable square feet of the existing library, and constructing an addition of 15,319 assignable square feet. Occupancy is anticipated in November 1976.			
Barstow Community College District	–	9,000	–

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

BOARD OF GOVERNORS OF THE COMMUNITY COLLEGES—CAPITAL OUTLAY—Continued

STATE BUILDING PROGRAM EXPENDITURES	Actual 1972–73	Estimated 1973–74	Proposed 1974–75	Projected 1975–76	Projected 1976–77	Projected 1977–78	Projected 1978–79
MAJOR PROJECTS—Continued							
Butte Community College District	$4,453	4,058,884	**62,900**				
Butte College:							
Business, police science, and home economics building:	–	–	*36,000*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, offices and teaching laboratories for business, police science and home economics. The building will contain 12,454 assignable square feet; occupancy is anticipated in September 1975.							
Office building and dining facility	–	–	*26,900*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for a kitchen and dining area, office space, 4322 assignable square feet of (nonstate funded) bookstore and student activities spaces. The building will contain 17,643 assignable square feet, and occupancy is anticipated in January 1976.							
Cabrillo Community College District	–	1,092,100	**172,400**				
Cabrillo College:							
Site development and utilities, phase I	–	–	*108,800*[C]				
Funds for construction are requested for 1974–75. This project will provide utility services, an access road, and demolition of existing structures. The project is scheduled for completion in February 1975.							
Occupational center	–	–	*63,600*[W]				
Funds for working drawings are requested for 1974–75. This project will provide classrooms, offices, and teaching laboratories for nursing, child care, data processing, electronics, construction technology, law enforcement, automechanics, drafting, machine shop, sheet metal, welding and other trade-technical occupations. Fifty percent of this project will be nonstate funded. The building will contain 55,550 assignable square feet. Occupancy is anticipated in February 1977.							
Cerritos Community College District	–	1,456,920	**187,000**				
Cerritos College:							
Health science paramedical building	–	–	*187,000*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, offices, and teaching laboratories for home economics, dental assisting, nursing, cosmetology, prosthetics and orthotics, and related facilities. The building will contain 29,073 assignable square feet, and occupancy is anticipated in July 1975.							
Chaffey Community College District	–	–	**321,900**				
Chaffey College:							
Gymnasium building	–	–	*321,900*[W C E]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide additional physical education lockers and storage, toilet, classroom and body building areas. The building addition will contain 7,754 assignable square feet; occupancy is anticipated in September 1975.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

STATE BUILDING PROGRAM EXPENDITURES	Actual 1972–73	Estimated 1973–74	Proposed 1974–75	Projected 1975–76	Projected 1976–77	Projected 1977–78	Projected 1978–79
MAJOR PROJECTS—Continued							
Citrus Community College District	–	–	**492,600**				
Citrus College:							
Conversion of warehouse and adjacent facility	–	–	*260,900*[WCE]				
Funds for working drawings, construction, and equipment are requested for 1974–75. This project will provide the conversion of an old warehouse and maintenance building into teaching laboratories for deisel engines, welding, and auto body work. The remodeling will contain 10,000 assignable square feet; occupancy is anticipated in September 1975.							
Auto shop stall addition	–	–	*156,900*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide a semienclosed auto shop teaching laboratory with related facilities. The building will contain 5,600 assignable square feet; occupancy is anticipated in September 1975.							
Campus utility-east campus	–	–	*74,800*[WC]				
Funds for working drawings and construction are requested for 1974–75. This project will provide gas, water, and electrical lines to accommodate the vocational technical facilities. The project is scheduled for completion in September 1975.							
Coast Community College District	1,495,308	3,553,943	**1,275,600**				
Golden West College:							
Music addition No. 1	–	–	*37,300*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for offices, music laboratories, practice rooms, music studios, audio-visual and related facilities. The building will contain 7,262 assignable square feet; occupancy is anticipated in July 1975.							
Mathematics and Science addition No. 2	–	–	*146,800*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for offices and teaching laboratories for biology, mathematics, and physical sciences. The addition will contain 14,270 assignable square feet; occupancy is anticipated in July 1975.							
Library and audio-visual addition No. 3	–	–	*128,800*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for art laboratories, library reading rooms and carrels, offices and audo-visual facilities. The addition will contain 18,314 assignable square feet. Occupancy is anticipated in July 1975.							
Corporation yard addition	–	–	*126,900*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide a maintenance and grounds shop and related facilities. The building will contain 6,291 assignable square feet; occupancy is anticipated in September 1975.							
Orange Coast College:							
Lecture hall and art building addition	–	–	*84,100*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, lecture hall, photographic laboratories, art gallery, service rooms, and offices. The building will contain 13,192 assignable square feet; occupancy is anticipated in December 1974.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

Coast Community College District—Continued							
Literature and language building	–	–	*751,700*[WC]				
Funds for working drawings and construction are requested for 1974–75. This project will provide classrooms, offices and teaching laboratories for anthropology, geography, foreign language, speech, and reading. The building will contain 17,481 assignable square feet; occupancy is anticipated in April 1976.							
Contra Coste Community College District	2,599,632	843,000	**377,200**				
Diablo Valley College:							
Technical education remodeling	–	–	*102,800*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide for remodeling existing nursing laboratories for apparel design and air-conditioning classrooms, teaching laboratories, and offices. The building will contain 11,851 assignable square feet; occupancy is anticipated in October 1974.							
Science building	–	–	*274,400*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide classrooms, offices and teaching laboratories for astronomy. The building will contain 5,520 assignable square feet; occupancy is anticipated in September 1975.							
Fremont-Newark Community College District	–	3,052,355	**123,500**				
Ohlone College:							
Indoor physical education facilities	–	–	*52,300*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for the gymnasium, shower, and locker rooms, activity rooms, and related physical education facilities. The building will contain 30,571 assignable square feet; occupancy is anticipated in September 1975.							
Multidiscipline classroom building	–	–	*58,500*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, teaching laboratories for journalism and special studies, offices, and food service facilities. The building will contain 11,521 assignable square feet; occupancy is anticipated in September 1975.							
Outdoor physical education unit	–	–	*8,400*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for outdoor physical education facilities consisting of play fields and a baseball diamond. The project is scheduled for completion in September 1975.							
Outdoor physical education facilities (pool)	–	–	*4,300*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for a swimming pool and related facilities. The project is scheduled for completion in September 1975.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

MAJOR PROJECTS—Continued							
Glendale Community College District	–	39,678	**855,900**				
Glendale College:							
Technical education building	–	–	*855,900*[c]				
Funds for construction are requested for 1974–75. This project will provide offices and teaching laboratories for ceramics, sculpture, art design and aero technology. The building will contain 21,109 assignable square feet; occupancy is anticipated in May 1976.							
Grossmont Community College District	1,028,028	52,626	**1,317,000**				
Monte Vista Campus:							
Site development, phase I	–	–	*887,100*[c]				
Funds for construction are requested for 1974–75. This project will provide site clearing and grading, storm drainage, and utility lines for the first increment of buildings This project is scheduled for completion in July 1975.							
Offsite development	–	–	*25,900*[c]				
Funds for construction are requested for 1974–75. This project will provide the necessary offsite connections of campus utilities to public utility systems. The project is scheduled for completion in July 1975.							
Library building	–	–	*92,100*[w]				
Funds for working drawings are requested for 1974–75. This project will provide general classrooms, teaching laboratories for business, mathematics and English; a language laboratory; audiovisual services and related facilities; library reading rooms, study halls, stacks and service areas and a nonstate funded bookstore. The building will contain 48,151 assignable square feet; occupancy is anticipated in August 1977.							
Science building	–	–	*72,200*[w]				
Funds for working drawings are requested for 1974–75. This project will provide classrooms, faculty offices, and teaching laboratories for biological and physical sciences, and social sciences. The building will contain 22,229 assignable square feet; occupancy is anticipated in August 1977.							
Vocational tech and arts building	–	–	*144,500*[w]				
Funds for working drawings are requested for 1974–75. This project will provide classrooms for mathematics, history and English; faculty and administration offices; and teaching laboratories for air-conditioning, metal trades, auto mechanics, building trades, electronics, industrial technology, photography, drafting, engineering technology, and art. The building will contain 57,729 assignable square feet; occupancy is anticipated in August 1977.							
Physical education building	–	–	*60,400*[w]				
Funds for working drawings are requested for 1974–75. This project will provide a main gymnasium, auxiliary rooms, men's and women's shower and locker rooms, equipment storage rooms, classrooms and faculty offices. The building will contain 47,107 assignable square feet; occupancy is anticipated in August 1977.							
Dining facilities	–	–	*23,700*[w]				
Funds for working drawings are requested for 1974–75. This project will provide a student and faculty dining area, kitchen and related facilities, a snack bar, a conference room, and offices. The building will contain 8,951 assignable square feet; occupancy is anticipated in August 1977.

Funds for working drawings are requested for 1974–75. This project will provide power substations and maintenance shops for the campus. The building will contain 6,421 assignable square feet. Occupancy is anticipated in August 1977.							
Hartnell Joint Community College District	101,559	88,500	**1,705,400**				
Hartnell College:							
Classroom, counseling, and administration building	–	–	*1,136,700*[C]				
Funds for construction are requested for 1974–75. This project will provide general classrooms, administration and faculty offices, office service areas, and teaching laboratories for language arts, business, home economics and nursing. The building will contain 37,280 assignable square feet; occupancy is anticipated in February 1976.							
Visual arts building	–	–	*568,700*[C]				
Funds for construction are requested for 1974–75. This project will provide classrooms, offices and teaching laboratories for ceramics, sculpture, jewelry crafts, graphic arts and photography. A nonstate funded art gallery is also included. The building will contain 17,535 assignable square feet; occupancy is anticipated in February 1976.							
Imperial Community College District	–	696,200	–				
Kern Community College District	184,634	2,086,235	**201,700**				
Bakersfield College:							
Downtown center remodeling	–	–	*101,300*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, offices and teaching laboratories for business, home economics, data processing. This remodeling project is scheduled for occupancy in September 1974.							
Porterville College:							
Outdoor physical education facilities (pool)	–	–	*100,400*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide a swimming pool with decking and related site development. The project is scheduled for completion in April 1975.							
Lassen Community College District	–	1,797,080	**727,600**				
Lassen College:							
Science building	–	–	*150,400*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for offices and teaching laboratories for life sciences, physical sciences and physiology. The building will contain 9,834 assignable square feet; occupancy is anticipated in August 1975.							
Student personnel services building	–	–	*333,000*[WC]				
Funds for working drawings and construction are requested for 1974–75. This project will provide administration offices, a conference room, office services, health services and a tutorial room. The building will contain 3,412 assignable square feet; occupancy is anticipated in November 1975.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

Lassen Community College District—Continued							
Maintenance and warehouse building	–	–	*244,200*[WC]				
Funds for working drawings and construction are requested for 1974–75. This project will provide warehousing and a general maintenance area. The building will contain 5,082 assignable square feet. Occupancy is anticipated in November 1975.							
Long Beech Community College District	193,900	126,559	–				
Los Angeles Community College District	–	2,744,187	**1,453,800**				
Los Angeles Harbor College:							
Music building	–	–	*139,800*[C]				
Funds for construction are requested for 1974–75. This project will provide teaching laboratories, a recital hall, practice rooms, locker space, and offices for music. The building will contain 19,662 assignable square feet; occupancy is anticipated in May 1976.							
Library and audiovisual addition	–	–	*234,500*[C]				
Funds for construction are requested for 1974–75. This project will provide a language laboratory; library carrel space, study and stack areas; an audiovisual service area, and related support facilities. The addition will contain 27,797 assignable square feet; occupancy is anticipated in May 1976.							
West Los Angeles College:							
Utilities and site development	–	–	*202,600*[C]				
Funds for construction are requested for 1974–75. This project will provide a boiler building and pump house to serve the permanent campus. It will also include demolition, site grading, utility lines, storm drains, and campus roads. The project is scheduled for completion in May 1976.							
Classroom and laboratory building	–	–	*279,900*[C]				
Funds for construction are requested for 1974–75. This project will provide classrooms, offices, and teaching laboratories for biological sciences and language arts. The building will contain 30,536 assignable square feet; occupancy is anticipated in May 1976.							
Library and audiovisual building	–	–	*352,200*[C]				
Funds for construction are requested for 1974–75. This project will provide offices, teaching laboratories for humanities, audiovisual service areas, television studios, and library facilities consisting of study halls, stacks, carrel space and services. The building will contain 46,319 assignable square feet; occupancy is anticipated in May 1976.							
Physical education buildings	–	–	*244,800*[C]				
Funds for construction are requested for 1974–75. This project will provide men's and women's shower and locker space, auxiliary gymnasium, health services and office space. The building will contain 27,842 assignable square feet; occupancy is anticipated in May 1976.							
Los Rios Community College District	943,670	6,905,600	**599,300**				
American River College:							
Electronics, auto mechanics, and welding additions	–	–	*173,000*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, offices, and teaching laboratories for electronics, data processing, auto mechanics, and welding. The additions will contain 22,291 assignable square feet; occupancy is anticipated in August 1975.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

MAJOR PROJECTS—Continued							
Los Rios Community College District—Continued							
Administration addition and alterations	–	–	*35,100*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for administrative and counseling offices and related facilities. The alterations will consist of 6,786 assignable square feet and the addition will contain 7,551 assignable square feet. Occupancy is anticipated in September 1975.							
Cosumnes River College:							
Classroom building	–	–	*160,800*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, offices, and teaching laboratories for anthropology, psychology, business, home economics, and graphic arts. The building will contain 24,697 assignable square feet; occupancy is anticipated in April 1975.							
Sacramento City College:							
Classroom and administration building, Phases I and II	–	–	*230,400*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, faculty and administration offices, and teaching laboratories for mathematics, English, graphic arts, medical-dental, electronics, home economics, photography, physical sciences, and health services. The building will contain 70,662 assignable square feet, and is scheduled for occupancy in August 1975 for Phase I and August 1976 for Phase II.							
Marin Community College District	518,514	2,427,088	**2,000,000**				
College of Marin:							
Remodel old library-engineering-industrial arts buildings	–	–	*383,600*[W CE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide for the remodeling of existing buildings into classrooms, faculty offices, and teaching laboratories for anthropology, graphic arts, home economics, auto mechanics, metal trades, and welding. The buildings will contain 20,354 assignable square feet; occupancy is anticipated in September 1975.							
Indian Valley Colleges:							
Inner college "A"	–	–	*101,300*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, faculty offices, teaching laboratories for physical sciences and business, a language laboratory, library study area, audiovisual services, food service, and related facilities. The building will contain 19,905 assignable square feet; occupancy is anticipated in November 1974.							
Multidiscipline classroom laboratory building	–	–	*94,700*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms; faculty offices; teaching laboratories for physical sciences, art and music; a language laboratory; library study area, food service, audiovisual service, and related facilities. The building will contain 18,932 assignable square feet; occupancy is anticipated in November 1974.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

MAJOR PROJECTS—Continued							
Marin Community College District—Continued							
Administration building	–	–	*29,800*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for administrative offices, conference rooms, campus duplicating facilities, library study area, health services, and related facilities. The building will contain 6,964 assignable square feet; occupancy is anticipated in November 1974.							
Powerplant and corporation yard	–	–	*18,800*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for warehouse and maintenance shops. The building will contain 6,251 assignable square feet. Occupancy is anticipated in November 1974.							
Science technology classroom and laboratory building	–	–	*898,900*[C]				
Funds for construction are requested for 1974–75. This project will provide general classrooms; teaching laboratories for biological sciences, physical sciences, medical assisting, and auto mechanics; library study area; audiovisual services; food service; and related facilities. The building will contain 26,423 assignable square feet; occupancy is anticipated in April 1976.							
Library building	–	–	*322,800*[C]				
Funds for construction are requested for 1974–75. This project will provide library reading and study areas, stacks, library service area, offices and audiovisual service area. The building will contain 9,968 assignable square feet; occupancy is anticipated in April 1976.							
Initial complement of library books	–	–	*129,500*[E]				
Funds for equipment are requested for 1974–75. This request will provide the initial and only phase of library books for the college. This will provide for the purchase of approximately 25,000 volumes. The building to house the books is scheduled for occupancy in April 1976.							
Physical education buildings	–	–	*16,500*[W]				
Funds for working drawings are requested for 1974–75. This project will provide two activity rooms, men's and women's shower and locker rooms, equipment storage and related facilities. The buildings will contain 11,452 assignable square feet; occupancy is anticipated in April 1977.							
Outdoor physical education facilities (pool)	–	–	*4,100*[W]				
Funds for working drawings are requested for 1974–75. This project will provide a swimming pool with decking and mechanical services. The project is scheduled for completion in April 1977.							
Merced Community College District	291,436	750,100	**982,600**				
Merced College:							
Agriculture science facilities	–	–	*487,800*[W C E]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide offices, lath house, livestock pens, storage, and teaching laboratories for plant science, livestock judging and horseshoeing. It also provides for an animal waste disposal system. The buildings will contain 10,844 assignable square feet; occupancy is anticipated in November 1975.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

Napa College:							
Gymnasium complex	–	–	*80,300*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms; offices; main and auxiliary gymnasiums; shower and locker facilities; handball, tennis and multipurpose courts; and other related physical education facilities. The building will contain 40,129 assignable square feet; occupancy is anticipated in March 1975.							
Outdoor physical education facility (pool)	–	–	*7,900*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for a swimming pool and related facilities. The project is scheduled for completion in March 1975.							
North Orenge County Community College District	3,556,012	1,543,591	**2,492,000**				
Cypress College:							
Vocational-technical building	–	–	*2,314,600*[C]				
Funds for construction are requested for 1974–75. This project will provide classrooms, offices, study area, and teaching laboratories for business, health services, air-conditioning, engine repair, welding, and other trade-technical courses. The building will contain 46,765 assignable square feet; occupancy is anticipated in May 1976.							
Men's gymnasium	–	–	*97,800*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for a main and auxiliary gymnasium, offices, health services, study rooms, instructional areas and support facilities. The project also includes equipment for 3,600 assignable square feet of classrooms and laboratories in a remodeled existing building. The building will contain 37,115 assignable square feet; occupancy is anticipated in January 1976.							
Administration building	–	–	*36,500*[W]				
Funds for working drawings are requested for 1974–75. This project will provide offices, conference rooms, and office service areas for instructional and general administration functions. The building will contain 14,334 assignable square feet; occupancy is anticipated in September 1976.

MAJOR PROJECTS—Continued							
North Orange County Community College District—Continued							
Fullerton College:							
Remodel north science building	–	–	*13,600*[w]				
Funds for working drawings are requested for 1974–75. This project will provide for the remodeling of classrooms, offices, and teaching laboratories for mathematics, earth science and audio tutorial. The remodeled facility will contain 16,754 assignable square feet; occupancy is anticipated in September 1976.							
Remodel business education building	–	–	*12,600*[w]				
Funds for working drawings are requested for 1974–75. This project will provide for the remodeling of classrooms, offices, and teaching laboratories for business and photography. The remodeled facility will contain 15,340 assignable square feet; occupancy is anticipated in September 1976.							
Remodel home economics and fine arts building	–	–	*16,900*[w]				
Funds for working drawings are requested for 1974–75. This project will provide for the remodeling of classrooms, offices, and teaching laboratories for art, home economics, and nursery school. The remodeled facility will contain 29,123 assignable square feet; occupancy is anticipated in September 1976.							
Oceanside Community College District	6,381	352,214	–				
Palomar Community College District	–	–	**195,200**				
Palomar College:							
Educational theater	–	–	*26,200*[w]				
Funds for working drawings are requested for 1974–75. This project will provide a 400-seat theater with stage, green room and other related facilities. The building will contain 15,927 assignable square feet. Occupancy is anticipated in October 1976.							
Handball courts and shower and locker building	–	–	*169,000*[w c]				
Funds for working drawings and construction are requested for 1974–75. This project will provide six handball courts and additional men's and women's shower and locker space. The building will contain 4,444 assignable square feet; occupancy is anticipated in November 1975.							
Pasadena Area Community College District	91,434	223,600	**1,830,000**				
Pasadena City College:							
Remodeling and air-conditioning of science building "D"	–	–	*800,200*[w c]				
Funds for working drawings and construction are requested for 1974–75. This project will provide for the remodeling of classrooms, teaching laboratories, and office for life sciences. Air-conditioning of the entire building is also included. The building will contain 25,350 assignable square feet; occupancy is anticipated in February 1976.							
Remodeling and air-conditioning of science building "E"	–	–	*848,400*[w c]				
Funds for working drawings and construction are requested for 1974–75. This project will provide for the remodeling of classrooms, teaching laboratories, and offices for physical sciences. Air-conditioning of the entire building is also included. The building will contain 23,815 assignable square feet; occupancy is anticipated in September 1975.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

Air-conditioning of music building	–	–	*181,400*[WC]				
Funds for working drawings and construction are requested for 1974–75. This project will provide air-conditioning for classrooms, teaching laboratories and offices for music. The building will contain 15,717 assignable square feet; occupancy is anticipated in September 1975.							
Peralta Community College District	1,207,460	2,308,611	**1,795,900**				
College of Alameda:							
Gymnasium facilities	–	–	*38,700*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for gymnasium, men's and women's shower and locker rooms, equipment storage, a dance studio, health services and offices. The building will contain 28,266 assignable square feet; occupancy is anticipated in January 1976.							
Library building	–	–	*50,200*[W]				
Funds for working drawings are requested for 1974–75. This project will provide library facilities consisting of reading and study areas, stacks, carrel areas, a service area, a television studio and control room, an audiovisual service area, and offices. The building will contain 31,460 assignable square feet. Occupancy is anticipated in August 1977.							
Feather River College:							
Multipurpose facility	–	–	*968,900*[WC]				
Funds for working drawings and construction are requested for 1974–75. This project will provide a multipurpose room for a gymnasium and theater, men's and women's shower and locker space, drama storage, health services, and office space. The building will contain 21,710 assignable square feet, and occupancy is anticipated in May 1976.							
Warehouse and maintenance building	–	–	*128,700*[WC]				
Funds for working drawings and construction are requested for 1974–75. This project will provide a warehouse and maintenance shop for the campus. The building will contain 4,555 assignable square feet; occupancy is anticipated in December 1974.							
Laney College:							
Drama facilities	–	–	*162,500*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for offices, an auditorium, stage area, green room, workshop, television studio and control room, radio studio, television and cinema service areas, and related facilities. The building will contain 21,466 assignable square feet; occupancy is anticipated in August 1974.							
Merritt College:							
Library building	–	–	*87,900*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for library facilities consisting of study areas, stacks, offices, carrel areas, a television studio and control room and service areas for library and audiovisual functions. The building will contain 26,908 assignable square feet; occupancy is anticipated in December 1975.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

Peralta Community College District—Continued							
Outdoor physical education facilities, Phase I	–	–	*235,500*[WC]				
Funds for working drawings and construction are requested for 1974–75. This project will provide turfed and irrigated play fields, a baseball diamond, six handball courts, two tennis courts, a storage shed, and related facilities. The project is scheduled for completion in September 1975.							
Outdoor physical education facilities, Phase II (pool)	–	–	*123,500*[WC]				
Funds for working drawings and construction are requested for 1974–75. This project will provide a swimming pool with decking and mechanical equipment. This project is scheduled for completion in September 1975.							
Rancho Santiago Community College District	1,179,054	–	**239,500**				
Santa Ana College:							
Social science-language arts building	–	–	*101,300*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, offices, and teaching laboratories for psychology, anthropology, English, reading, journalism, and foreign languages. The building will contain 36,651 assignable square feet; occupancy is anticipated in September 1974.							
Phillips Hall addition and alterations	–	–	*138,200*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide for converting of existing space into a theater arts laboratory, classrooms, and office space. It will also provide an additional 1,540 assignable square feet of stage storage space. The alterations will involve 8,239 assignable square feet; occupancy is anticipated in September 1974.							
Redwoods Joint Community College District	–	2,360,440	**227,500**				
College of the Redwoods:							
Allied health occupation-vocational tech building	–	–	*227,500*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, offices, and teaching laboratories for forestry, health services, aero-technology, building trades, metal trades, and welding. The building will contain 22, 253 assignable square feet, and occupancy is anticipated in September 1975.							
Riverside Community College District	–	–	**779,500**				
Riverside City College:							
Auto service and body shop	–	–	*425,100*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide offices and teaching laboratories for auto services, auto body, and engine rebuilding. The building will contain 9,882 assignable square feet; occupancy is anticipated in September 1975.							
Technical "A" and "B" remodel	–	–	*330,000*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide offices and teaching laboratories for air-conditioning, drafting, graphic arts, machine shop, welding, and plastics. The building will contain 11,888 assignable square feet; occupancy is anticipated in September 1975.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

MAJOR PROJECTS—Continued							
San Diego Community College District—Continued							
Dining facility	–	–	*1,243,600*[c]				
Funds for construction are requested for 1974–75. This project will provide student and faculty dining areas, kitchen and service areas, a culinary arts classroom, and office space. The building will contain 22,739 assignable square feet; occupancy is anticipated in January 1976.							
Administration building remodel, phase II	–	–	*146,800*[w c]				
Funds for working drawings and construction are requested for 1974–75. This project will provide for the remodeling of existing space into classrooms, offices, and teaching laboratories for biological sciences. The remodeled building will contain 8,363 assignable square feet; occupancy is anticipated in September 1975.							
Physical education expansion	–	–	*57,500*[w]				
Funds for working drawings are requested for 1974–75. This project will provide a main gymnasium, exercise room, shower and locker space, equipment storage, and offices. The building will contain 28,537 assignable square feet. Occupancy is anticipated in December 1976.							
San Diego Mesa College:							
Science building addition	–	–	*952,600*[w c]				
Funds for working drawings and construction are requested for 1974–75. This project will provide a classroom, greenhouse, faculty offices, and teaching laboratories for biological sciences. The building will contain 13,103 assignable square feet; occupancy is anticipated in October 1976.							
Student personnel administration building	–	–	*425,000*[w c]				
Funds for working drawings and construction are requested for 1974–75. This project will provide administrative offices, a conference room, and office service areas. The building will contain 7,160 assignable square feet; occupancy is anticipated in September 1976.							
Music addition	–	–	*372,800*[w c]				
Funds for working drawings and construction are requested for 1974–75. This project will provide offices, teaching laboratories, and practice rooms for music. The building will contain 4,661 assignable square feet; occupancy is anticipated in September 1976.							
San Francisco Community College District	375,158	88,171	**4,946,900**				
City College of San Francisco:							
Social science classroom and laboratory building	–	–	*2,999,600*[c]				
Funds for construction are requested for 1974–75. This project will provide general classrooms, faculty offices, and teaching laboratories for psychology, humanities, English, home economics, police science, fire science, architecture, and teacher assisting. Space for a library study hall, computer services center and administrative offices will also be included. The building will contain 69,917 assignable square feet; occupancy is anticipated in August 1976.							
Downtown education center	–	–	*1,947,300*[c]				
Funds for construction are requested for 1974–75. This project will provide general classrooms, offices and teaching laboratories for business and culinary arts. Also included will be library study space, audiovisual service areas and related facilities. The building will contain 47,796 assignable square feet; occupancy is anticipated in July 1976.

San Joaquin Delta College:							
Business, health sciences and drama building	–	–	*179,200*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, offices, food services, an auditorium, and teaching laboratories for drama, speech, business, and nursing. The building will contain 52,577 assignable square feet; occupancy is anticipated in September 1975.							
Education laboratory and services building	–	–	*106,300*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms; offices; teaching laboratories for English and education; health services; food services; and warehouse and maintenance services. The building will contain 50,075 assignable square feet; occupancy is anticipated in September 1975.							
Physical education classroom and laboratory building	–	–	*94,800*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, offices, food services, teaching laboratories for speech and electronics, and physical education space consisting of lockers, showers, gymnastics, and weight lifting. The building will contain 51,369 assignable square feet; occupancy is anticipated in September 1975.							
Indoor physical education facilities	–	–	*3,200*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for a physical education gymnasium. The building will contain 27,878 assignable square feet. Occupancy is anticipated in September 1975.							
Outdoor physical education facilities phase I	–	–	*6,800*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for outdoor physical education. Occupancy is anticipated in September 1975.							
Outdoor physical education facilities phase II	–	–	*4,700*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for aquatic facilities. Occupancy is anticipated in September 1975.							
San Jose Community College District	–	3,117,839	**1,310,900**				
Evergreen Valley College:							
Administration and multidiscipline classroom and laboratory building	–	–	*340,800*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms; offices; teaching laboratories for biological, physical sciences, mathematics, nursing, law enforcement, drafting, engineering, auto mechanics and welding; library study halls; and food services. The building will contain 59,340 assignable square feet; occupancy is anticipated in April 1975.							
Science and humanities building	–	–	*164,600*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for general classrooms, offices, language laboratories, library and audio-visual areas, food service, and teaching laboratories in art and business. The building will contain 34,815 assignable square feet; occupancy is anticipated in April 1975.							

For the list of standard lettered capital outlay footnotes, see the end of this budget

STATE BUILDING PROGRAM EXPENDITURES	Actual 1972–73	Estimated 1973–74	Proposed 1974–75	Projected 1975–76	Projected 1976–77	Projected 1977–78	Projected 1978–79
MAJOR PROJECTS—Continued							
San Jose Community College District—Continued							
Central utilities building	–	–	*10,400*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for security offices, control room, and shop area. The building will contain 8,313 assignable square feet; occupancy is anticipated in March 1975.							
Off-site utilities	–	–	*89,500*[W C]				
Funds for working drawings and construction are requested for 1974–75. This project will provide an off-site storm sewer line and outfall structure to Yerba Buena Creek. The request also includes City of San Jose fee charges for water and sewer lines. This project is scheduled for completion in January 1975.							
Physical education building	–	–	*342,500*[C]				
Funds for construction are requested for 1974–75. This project will provide a general classroom, body building facilities, men's and women's shower and locker rooms, equipment storage rooms, offices, and related facilities. The building will contain 10,306 assignable square feet; occupancy is anticipated in December 1975.							
Outdoor physical education facilities	–	–	*269,800*[C E]				
Funds for construction and equipment are requested for 1974–75. This project will provide a turfed multi-purpose play field, an archery range, six tennis courts, four hard-surface courts for basketball and volleyball, asphalt walk ways, landscaping, irrigation, and related facilities. The project is scheduled for completion in October 1975.							
Initial complement of library books	–	–	*93,300*[E]				
Funds for equipment are requested for 1974–75. This request will provide the initial and only phase of library books for the college. This will provide for the purchase of approximately 20,000 volumnes. The building to house the books is scheduled for occupancy in September 1975.							
San Luis Obispo County Community College District	184,109	2,571,040	**1,400,500**				
Cuesta College:							
Business education, engineering, and math building	–	–	*51,000*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, offices, and teaching laboratories for business, data processing, engineering and electronics. The building will contain 9,588 assignable square feet; occupancy is anticipated in September 1974.							
Auto mechanics and welding technology building	–	–	*64,700*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for auto mechanics and welding teaching laboratories. The building will contain 6,680 assignable square feet. Occupancy is anticipated in September 1974.							
Cafeteria	–	–	*18,800*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for food services, including dining area, kitchen, serving area, and related facilities. The building will contain 6,476 assignable square feet; occupancy is anticipated in September 1974.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

BOARD OF GOVERNORS OF THE COMMUNITY COLLEGES—CAPITAL OUTLAY—Continued

STATE BUILDING PROGRAM EXPENDITURES	Actual 1972–73	Estimated 1973–74	Proposed 1974–75	Projected 1975–76	Projected 1976–77	Projected 1977–78	Projected 1978–79
MAJOR PROJECTS—Continued							
San Luis Obispo County Community College District —Continued							
Social science and language arts building	–	–	*421,200*[C]				
Funds for construction are requested for 1974–75. This project will provide classrooms, a lecture hall, and teaching laboratories for speech, journalism, social sciences, and language arts. A television and radio studio will also be provided. The building will contain 11,742 assignable square feet; occupancy is anticipated in September 1975.							
Fine arts building	–	–	*485,400*[C]				
Funds for construction are requested for 1974–75. This project will provide offices and teaching laboratories for music, ceramics, sculpture and art. The building will contain 8,380 assignable square feet; occupancy is anticipated in September 1975.							
Faculty office building	–	–	*194,600*[C]				
Funds for construction are requested for 1974–75. This project will provide faculty offices, a conference room, and office services for the humanities department. The building will contain 2,534 assignable square feet; occupancy is anticipated in September 1975.							
Maintenance and warehouse building	–	–	*164,800*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide warehousing and maintenance shops for the campus. The building will contain 5,369 assignable square feet. Occupancy is anticipated in May 1975.							
San Mateo Community College District	69,953	–	–				
Santa Barbara Community College District	1,106,427	267,694	**4,254,400**				
Santa Barbara City College:							
Drama and music facilities	–	–	*1,774,300*[C]				
Funds for construction are requested for 1974–75. This project will provide general classrooms, offices, and teaching laboratories for music and drama. Also included will be a 394 seat auditorium with related facilities. The building will contain 30,778 assignable square feet; occupancy is anticipated in September 1976.							
Vocational-technology building	–	–	*752,200*[CE]				
Funds for construction and equipment are requested for 1974–75. This project will provide classrooms, offices, and teaching laboratories for machine shop, auto mechanics and welding. The building will contain 13,364 assignable square feet; occupancy is anticipated in September 1975.							
Site acquisition	–	–	*1,714,000*[A]				
Funds for acquisition are requested for 1974–75. This acquisition will provide an additional 31.62 acres of property adjacent to the present campus. The additional area will be used to provide a location for the drama and music facilities and for other facilities which will be built as the capacity of the existing campus expands from 4,500 to 7,500 day graded enrollment. The acquisition is scheduled to be made by April 1974.							
Site development, phase I	–	–	*13,900*[W]				
Funds for working drawings are requested for 1974–75. This project will provide for rough grading, utility mains, storm drains, erosion control, and a pedestrian-utility bridge. This project is scheduled for completion in February 1976.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

MAJOR PROJECTS—Continued							
Santa Clarita Community Collega District	3,880,795	4,128,265	**858,800**				
College of the Canyons:							
Vocational technology building	–	–	*184,200*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for teaching laboratories for engineering technology, welding, machine shop, air conditioning, auto mechanics, home economics and plastics. The building will contain 13,666 assignable square feet; occupancy is anticipated in March 1975.							
Site development, phase IV B	–	–	*674,600*[WC]				
Funds for working drawings, and construction are requested for 1974–75. This project will provide for rough grading, water service extension, main entrance and service roads, and a portion of the county road on the east side of the campus. The project is scheduled for completion in September 1975.							
Santa Monica Community Collega District	122,284	3,393	–				
Collega of the Sequoias Community Collage District	–	40,400	**21,300**				
College of the Sequoias:							
Little theater	–	–	*21,300*[W]				
Funds for working drawings are requested for 1974–75. This project will provide offices and an auditorium with dressing rooms, greenroom, stage area, and related facilities. The building will contain 14,500 assignable square feet; occupancy is anticipated in September 1977.							
Shasta-Tehama-Trinity Joint Community Collage District	3,093	74,593	–				
Siarra Joint Community Collage District	–	483,500	**1,000,500**				
Sierra College:							
Library building addition and alterations	–	–	*45,700*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for offices and a library consisting of study halls, carrels, open stacks, and service and related facilities. The project will contain 12,151 assignable square feet of a new addition and 14,722 assignable square feet of remodeled area; occupancy is anticipated in September 1974.							
Student personnel addition	–	–	*292,200*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide offices for student services, admissions and deans; conference rooms; health services; and related facilities. The addition will contain 5,744 assignable square feet; occupancy is anticipated in September 1975.							
Warehouse and corporation yard	–	–	*174,500*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide a warehouse with fenced in corporation yard and related facilities. It also includes the remodeling of 3,067 assignable square feet of existing warehouse into a maintenance shop. The building will contain 4,862 assignable square feet; occupancy is anticipated in September 1975.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

MAJOR PROJECTS—Continued							
Sierra Joint Community College District—Continued							
Art addition	–	–	*146,000*[W C E]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide offices, ceramic and sculpture teaching laboratories, a kiln area, and related facilities. The addition will contain 3,275 assignable square feet. Occupancy is anticipated in September 1975.							
Automotive addition	–	–	*342,100*[W C E]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide classrooms, offices, and teaching laboratories for auto mechanics. The addition will contain 7,030 assignable square feet; occupancy is anticipated in September 1975.							
Solano Comunity College District	139,344	783,122	**176,400**				
Solano College:							
Central heating plant addition	–	–	*176,400*[WC]				
Funds for working drawings and construction are requested for 1974–75. This project will provide an additional boiler, chiller, cooling tower, and related facilities to accommodate the music drama building, which is now under construction, and future buildings. The project is scheduled for completion in September 1974.							
Sonome County Junior College District	–	–	**84,300**				
Santa Rosa Junior College:							
Liberal arts building	–	–	*84,300*[W]				
Funds for working drawings are requested for 1974–75. This project will provide offices, classrooms, and teaching laboratories for philosophy, ethnic studies, social science, English, and foreign languages. The building will contain 36,098 assignable square feet; occupancy is anticipated in February 1977.							
Stete Center Community College District	2,350,577	3,355,445	**1,211,100**				
Fresno City College:							
Student services building	–	–	*30,300*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms and offices for counseling, health and related student services. The building will contain 19,245 assignable square feet; occupancy is anticipated in June 1975.							
Business education building	–	–	*73,100*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for classrooms, faculty offices, and teaching laboratories for data-processing, accounting, office training and merchandising. The building will contain 20,257 assignable square feet; occupancy is anticipated in April 1975.							
Social science building	–	–	*406,800*[W C E]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide classrooms, lecture and study halls, offices and teaching laboratories for social science and related facilities. The building will contain 15,118 assignable square feet; occupancy is anticipated in June 1975.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

STATE BUILDING PROGRAM EXPENDITURES	Actual 1972–73	Estimated 1973–74	Proposed 1974–75	Projected 1975–76	Projected 1976–77	Projected 1977–78	Projected 1978–79
MAJOR PROJECTS—Continued							
State Center Community College District—Continued							
Administration building	–	–	*353,500*[WCE]				
Funds for working drawings, construction, and equipment are requested for 1974–75. This project will provide offices, a conference room, and office services for the campus administration functions. The building will contain 7,063 assignable square feet; occupancy is anticipated in June 1975.							
Reedly College:							
Lath and greenhouse addition	–	–	*68,100*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide additional space to both the existing lath house and greenhouse and a new, and separate, storage area. The additions will contain 4,359 assignable square feet; occupancy is anticipated in July 1975.							
Life science building	–	–	*279,300*[WC]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide offices and teaching laboratories for life science and related facilities. The building will contain 4,816 assignable square feet; occupancy is anticipated in May 1976.							
Sweetwater Community College District	825,510	2,227,144	**540,400**				
Southwestern College:							
Science buildings	–	–	*53,700*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for general classrooms, physical science and social science teaching laboratories, and faculty offices. The buildings will contain 15,880 assignable square feet; occupancy is anticipated in September 1974.							
Music arts building	–	–	*92,400*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for general classrooms, art and music teaching laboratories, music practice rooms, and faculty offices. The buildings will contain 16,034 assignable square feet; occupancy is anticipated in September 1974.							
Human services buildings	–	–	*76,300*[E]				
Funds for equipment are requested for 1974–75. This request will provide the equipment for the initial and only phase for general classrooms; teaching laboratories for health services, home economics and public services; lab service areas; and faculty offices. The buildings will contain 16,368 assignable square feet; occupancy is anticipated in September 1974.							
Automotives addition	–	–	*318,000*[WCE]				
Funds for working drawings, construction and equipment are requested for 1974–75. This project will provide a teaching laboratory and service area for auto mechanics. The addition will contain 7,500 assignable square feet. Occupancy is anticipated in January 1975.							

For the list of standard lettered capital outlay footnotes, see the end of this budget supplement.

BOARD OF GOVERNORS OF THE COMMUNITY COLLEGES—CAPITAL OUTLAY—Continued

STATE BUILDING PROGRAM EXPENDITURES	Actual 1972–73	Estimated 1973–74	Proposed 1974–75	Projected 1975–76	Projected 1976–77	Projected 1977–78	Projected 1978–79
MAJOR PROJECTS—Continued							
Ventura County Community College District	991,181	872,919	**127,600**				
Ventura College:							
Classroom building	–	–	*40,600*[E]				
Funds for equipment are requested for 1974–75. This request will provide the equipment for the initial and only phase for classrooms, offices and teaching laboratories for art and photography. The building will contain 10,140 assignable square feet; occupancy is anticipated in February 1975.							
Moorpark College:							
Social science and humanities classroom building	–	–	*87,000*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for general classrooms; teaching laboratories for social science, art and music; music practice rooms; faculty offices; and service and storage areas. The building will contain 27,891 assignable square feet; occupancy is anticipated in February 1975.							
West Valley Joint Community College District	211,977	819,044	**480,100**				
Saratoga Campus:							
Library and audiovisual building	–	–	*111,300*[E]				
Funds for equipment are requested for 1974–75. This request will provide equipment for the initial and only phase for offices, conference rooms, office services, audiovisual service areas, a business teaching laboratory, and audio tutorial laboratories for mathematics, physical sciences, and English. The building will contain 13,888 assignable square feet; occupancy is anticipated in November 1974.							
Mission Campus:							
Site development and utilities, phase 1	–	–	*234,800*[C]				
Funds for construction are requested for 1974–75. This project will provide for site clearance, rough grading, storm drainage, utility services, and a main entrance road. The project is scheduled for completion in July 1975.							
Off-site development	–	–	*67,300*[C]				
Funds for construction are requested for 1974–75. This project will provide for the City of Santa Clara fees for existing water mains, sanitary sewers and storm sewers. The project is scheduled for completion in September 1974.							
Language arts-social science building	–	–	*66,700*[W]				
Funds for working drawings are requested for 1974–75. This project will provide general classrooms; faculty offices; teaching laboratories for social science, business, speech, English, mathematics, health services, physical sciences, biology, art and graphic arts; library space; physical education activity rooms; shower and locker rooms; food service facilities; and audiovisual services. The building will contain 56,210 assignable square feet; occupancy is anticipated in January 1977.

STATE SCHOLARSHIP AND LOAN COMMISSION

Headquarters Office in Sacramento

Program Objectives

The State Scholarship and Loan Commission now administers six active programs of student financial assistance. They are: (1) The State Scholarship Program, (2) the State Graduate Fellowship Program, (3) the College Opportunity Grant Program, (4) the Occupational Training Grant Program, (5) the Scholarship Program for Dependents of Deceased or Disabled Peace Officers and (6) the newly authorized program for students in the California State University and College system interested in a real estate career. It also maintains responsibility for loans guaranteed under the State Guaranteed Loan Program, which was in operation in 1966–67 but has not guaranteed new loans since that time. The commission is also responsible for a program of contract for expansion of enrollment in medical schools a independent colleges. In addition, it has administere a program of special clinical internship grants t California medical schools which provide special in ternship programs for United States citizens who ar graduates of medical schools in the Republic o Mexico. This latter program is not funded in 1974–75 The commission also has responsibility for certain data collection and research statewide.

The Scholarship and Loan Commission consists of nine members, appointed by the Governor for four-year terms.

I. SCHOLARSHIP PROGRAM

Need

The State Scholarship Program is necessary and desirable as a method of assisting able but financially needy students, assisting independent colleges to expand and maintain enrollment, maintaining a balance between public and independent higher education in California and providing savings to the state through diversion of students to independent colleges. Recent studies have illustrated the serious financial problems facing independent colleges in California. The State Scholarship Program provides a supplement to institutional resources and makes it possible for institutions to maintain both their high quality and enrollment level. Without it, they would be faced with alternatives such as curtailing enrollment or changing standards.

Objectives

The State Scholarship Program was initiated and has been expanded by the Legislature to:

1. Encourage and assist able and financially needy students to attend any California college.

2. Assist California's independent colleges by increasing the number of students able to attend, thus allowing maintenance of independent college enrollment.

3. Provide for student choice and mobility and to encourage institutional diversity and responsiveness to student needs.

In relationship to independent colleges, the State Scholarship Program has:

1. Enabled independent institutions to educate more students.

2. Saved money for the state by relieving public institutions of a part of the added enrollment load.

3. Aided the quality of independent institutions.

4. Helped maintain diversity in higher education in California.

5. Expanded educational opportunities for disadvantaged students.

6. Historically, saved state funds by assisting in the diversion of students from public to independent colleges.

TABLE A
Summary of Growth of State Scholarship Program and Independent College Enrollment
(As of September of Each Year)

	Number of state scholars at independent colleges	State scholarship funds at independent colleges	Full-time undergraduate enrollment at independent colleges	State scholars as percent of full-time undergraduate enrollment at independent colleges
1967–68	3,906	$4,373,000	56,041	6.97
1968–69	5,372	6,400,000	57,789	9.3
1969–70	6,801	9,743,000	60,802	11.19
1970–71	7,718	11,134,000	63,034	12.24
1971–72	9,454	13,816,000	64,592	14.64
1972–73	10,621	17,743,000	63,501	16.73
1973–74 (est.)	12,573	22,428,000	64,856	19.38

As a result of Chapter 1034, Statutes of 1973, the number of budgeted new state scholarships has increased from 3.5 percent to 4 percent of high school graduates and the maximum award has been increased from $2,200 to $2,500 for new winners. The average state scholarship is estimated at $969 for renewal students and $1,027 for new students, with the amount computed by the Scholarship and Loan Commission according to the student's financial need from information provided by a standardized needs analysis. The budget anticipates that state scholarship winners will, in many cases, receive a federal basic educational opportunity grant.

Authority

The State Scholarship Program is authorized by Sections 31201 to 31218 of the Education Code.

General Description

The commission establishes standards and procedures for selecting new scholarship winners using both academic and financial need criteria. The commission also ascertains that the requirements of the law for legal residence and good citizenship have been met by each scholarship winner. Applications for renewal are screened on the basis of continued academic eligibility as determined by recommendations from the student's college and continued financial need.

Both new and renewal state scholarship winners' awards are reviewed and coordinated with the awards made by the colleges and/or private scholarship awarding groups and the new Federal Basic Opportunity Grants.

Payment of the state scholarships is made to the student's college by virtue of a tuition and fee claim prepared by the commission, submitted by the college, signed by the student, and returned to the commission for review and transmission to the State Controller for payment.

Workload Information

The budget is established at 4 percent of the previous year's high school graduates (12,617). It is also anticipated there will be 19,517 renewals for a total of 32,134 awards in effect in 1974–75. There will also be 5,796 community college reserve scholarships in 1974–75.

Forty-five thousand dollars have been added to the scholarship budget for one-time data processing costs to develop a system for placing payment on a data processing system with the anticipation that there will be significant savings in future years.

II. GRADUATE FELLOWSHIP PROGRAM

Need

The State Graduate Fellowship Program was redesigned by Chapter 1597, Statutes of 1971 so that it is now a general fellowship program open to able and financially needy graduate and professional students. It is parallel to the State Scholarship Program and it emphasizes fields where manpower demand exists.

Objectives

The State Graduate Fellowship Program exists to afford opportunity for study in graduate and professional schools. It exists to:

1. Assist California's independent colleges by increasing the number of students able to attend, thus allowing maintenance of independent college enrollment.
2. Encourage and assist able and financially needy students to attend any California college.

Authority

The Graduate Fellowship Program is authorized by Sections 31240 to 31251 of the Education Code. Graduate fellowships are authorized by Chapter 1659 of the Statutes of 1967 and renewal of graduate fellowships are authorized by Chapter 1335 of the Statutes of 1969.

General Description

The commission, with the assistance of the statutorily established graduate fellowship advisory committee, establishes standards and procedures for selecting new fellowship winners using academic, financial need and manpower need criteria and certifying the requirements of the law for legal residence. State graduate fellowships are renewable, up to a total of four years, if necessary for a degree objective and if financial need continues.

State graduate fellowships are reviewed and coordinated with awards made by colleges and/or private fellowship awarding groups.

Workload Information

Funding for the 1974–75 academic year provides for 600 fellowships at an average of $1,666.

III. COLLEGE OPPORTUNITY GRANT PROGRAM

Need

Over the years, the number of disadvantaged students enrolled in higher education has been disproportionately low. It has been public policy, through programs such as this, to increase enrollment of disadvantaged students in California colleges.

Objectives

The College Opportunity Grant Program is a unique program offering grant assistance to disadvantaged students with substantial potential for success in college and leadership in the community. The statutory provisions for the program allow the commission certain discretion in the methods used for selection.

Authority

Chapter 1410, Statutes of 1968, established the College Opportunity Grant Program. Chapter 1406, Statutes of 1971, increased the authorized new grants from 1,000 to 2,000 for each year and extended the life of the program through 1976–77.

General Description

The State Scholarship and Loan Commission is charged by law with providing a definition of a disadvantaged student for financial aid purposes and for establishing subjective and experimental methods of selection and providing financial assistance including tuition, fees, subsistence for such students. According to the law governing the program, most new winners initiate their education at a public community college. Grants provide for living expenses and tuition.

New college opportunity grant recipients in 1973–74 were:

1. From low-income families. The typical family

STATE SCHOLARSHIP AND LOAN COMMISSION—Continued

III. COLLEGE OPPORTUNITY GRANT PROGRAM—Continued

had three dependent children with a median annual income of $5,500.

2. Largely from minority groups. Of the total, 41.1 percent were brown (Chicano, Mexican-American), 24.1 percent were black (Negro), 10.8 percent were Asian, 18.8 percent white (Caucasian), 3.2 percent Filipino, 1.3 percent American Indian, and 0.7 percent other.

3. High academic achievers in high school. The median high school grade point average for new winners was 3.3 on a 4.00 scale.

Workload Information

In prior years the commission staff has developed a workload plan which includes administrative costs based upon experience. The 1974–75 budget includes funds for 2,000 new grants, 3,494 renewal grants, and administrative funds for selection of new winners and renewals. The average award is $1,114, and anticipates that COG winners will apply for, and in many cases, receive a Federal Basic Educational Opportunity Grant. A program assistant is added to assist with greatly increased workload and to make administrative staffing comparable to the scholarship program.

TABLE A
Participation Data

1. New College Opportunity Grants Awards:	1971–72	1972–73	1973–74	Proposed 1974–75
Number of applicants	5,926	8,929	9,341	10,000

IV. OCCUPATIONAL TRAINING GRANT PROGRAM

Need

The new Occupational Training Grant Program is necessary to increase the supply of skilled manpower in critical occupations and to assist talented and financially needy students to commence and finish a postsecondary vocational education.

Objectives

The Occupational Training Grant Program was initiated by the Legislature to:

1. Assist occupationally talented and financially needy students to attend postsecondary vocational education.
2. To increase the supply of skilled occupational manpower in areas where there are manpower needs.

Authority

The Occupational Training Grant Program is authorized by Sections 31295 to 31296.2 of the Education Code enacted by Chapter 987, Statutes of 1972.

General Description

1973 was the first year of the operation of the Occupational Training Grant Program. Five hundred grants were awarded in that year based on students' financial need and included tuition up to $2,000 and up to $500 for training-related costs. 1974–75 will be the first year in which there have been both new grants and renewals and it is estimated that there will be 799 awards at an average of $848 for a total of $677,500.

Workload Information

1974–75 will be the first year in which there are both new and renewal grants in effect. Administrative costs reflect the experience of 1973–74.

V. GUARANTEED LOAN PROGRAM

Need

The State Guaranteed Loan Program ceased guaranteeing new loans in November of 1967. Loans made since November of 1967 have been guaranteed by the U.S. Office of Education.

Objectives

The objective of the State Guaranteed Loan Program was to enable the State of California to provide credit to parents and/or students to pay college costs. Using federal funds as a reserve to purchase defaults, the commission did, through the State Guaranteed Loan Program, guarantee $14,795,000 in loans, made by California lenders to California students.

Authority

The State Guaranteed Loan Program is authorized by Sections 31271 to 13282 of the Education Code.

General Description

The commission, acting with federal law and regulations and state law, established standards and procedures and guaranteed loans made by California lenders to college students. Since the program is no longer operational, the commission's function is to maintain the records for loans outstanding, to purchase defaulted loans from lenders and to attempt collections on loans which have been purchased.

PROGRAM REQUIREMENTS	72–73	73–74	74–75	1972–73	1973–74	1974–75

STATE SCHOLARSHIP AND LOAN COMMISSION—Continued

VI. SCHOLARSHIPS FOR DEPENDENTS OF DECEASED OR DISABLED PEACE OFFICERS

Need

The program of scholarships for dependents of deceased peace officers is necessary to assure a college education for dependent children with financial need of peace officers who die or are totally and permanently disabled in the line of duty.

Objectives

The program was initiated by the Legislature to assure a college education for dependents of deceased or disabled peace officers.

Authority

The program was authorized by Chapter 1616, Statutes of 1969. Chapter 290, Statutes of 1973, amended the code so that the dependents of deceased or disabled Department of Corrections or Department of Youth Authority officers are also eligible for the program.

General Description

The program is open to students whose fathers were killed, died, or were disabled as a result of injury while serving as peace officers or correctional officers. The commission distributes information concerning the program to individuals on lists supplied by the Department of Industrial Relations and by information circulars to law enforcement offices and associations. The commission must establish dependency at time of death, the compensable and duty-related nature of death or disability, and financial need for applicants.

Workload Plan

Costs will be minimal.

PROGRAM REQUIREMENTS	72–73	73–74	74–75	1972–73	1973–74	1974–75
Continuing program costs *(General Fund)*	–	–	–	$5,203	$23,101	$17,719

VII. MEDICAL STUDENT CONTRACT PROGRAM

Need

Physicians are often unavailable in the specialty preparation and locations needed. Through this program the state has an alternative for increasing the number of physicians by increasing the subsidy contracts to otherwise non-state-supported medical schools.

Objectives

The Medical Student Contract Program is designed to make it economically feasible for medical schools at independent colleges to expand the number of students by providing a grant for each student above the 1970–71 levels.

Authority

The Medical Student Contract Program is authorized by Sections 31285.1 to 31285.4 of the Education Code. Chapter 1112, Statutes of 1973, appropriated funds to finance the Medical Student Contract Program.

General Description

The commission will negotiate a contract with medical schools at independent colleges in California accredited by the Joint Liaison Committee of the American Medical Association and the Association of American Medical Colleges for grants of up to $12,000, minus federal capitation grants, for each additional student enrolled in 1974–75.

Workload Information

A program including 189 students is funded for 1974–75 requiring a budget of $1,927,800. Administrative costs are continued at the 1973–74 level.

PROGRAM REQUIREMENTS	72–73	73–74	74–75	1972–73	1973–74	1974–75
Continuing program costs *(General Fund)*	–	1.2	1.2	$662,977	$1,224,256	$1,951,763

STATE SCHOLARSHIP AND LOAN COMMISSION—Continued

VIII. SPECIAL CLINICAL INTERNSHIP PROGRAM IN GENERAL PRACTICE MEDICINE

Need

In order to qualify to practice general practice medicine in California, students who have attended a medical school in the Republic of Mexico need to upgrade their skills through a special clinical internship program.

Objective

The Special Clinical Internship Program is to increase the clinical experience for U.S. citizens who attended a medical school in the Republic of Mexico.

Authority

The program is established by Sections 2185 to 2188 of the Business and Professional Code.

General Description

Special Clinical Internship Programs are offered by California medical schools and must be approved by the State Board of Medical Examiners. The Scholorship and Loan Commission acts as fiscal agent for the program.

PROGRAM REQUIREMENTS

	72–73	73–74	74–75	1972–73	1973–74	1974–75
Continuing program costs *(General Fund)*	–	–	–	$302,200	$503,002	–

IX. RESEARCH

Need

Student aid in the state has become a very large and complex educational enterprise, yet there has not been one agency charged with the collection of data and information concerning the extent and nature of student aid programs. Summary information and data concerning these programs, educational opportunity, and patterns of paying for college costs are essential for the orderly development of state programs and coordination between federal and state programs.

Objective

The objectives are to provide useful information and data concerning student aid. The data will be valuable in evaluating commission programs, the status of student aid statewide, and the effectiveness of state-funded programs in terms of their meeting objectives for which they exist.

Authority

The authority for this program is found in Section 31212 of the Education Code.

General Description

The commission will conduct an annual inventory of student financial aid resources available in California and related studies requested by the Governor, the Legislature, or initiated by the commission.

Workload Information

One professional position and one clerical position are budgeted to direct continuing studies.

PROGRAM REQUIREMENTS

	72–73	73–74	74–75	1972–73	1973–74	1974–75

X. SCHOLARSHIPS FOR STUDENTS AT THE CALIFORNIA STATE UNIVERSITY AND COLLEGES INTERESTED IN A REAL ESTATE CAREER

Need

The program provides assistance to students who are interested in a real estate career.

Objectives

The program was initiated by the Legislature to assure a college education for students with this particular occupational goal.

Authority

The program was authorized by Chapter 1173, Statutes of 1973.

General Description

The program is to be financed by interest on a $200,000 endowment from the Real Estate Fund which will be allotted to the State Scholarship and Loan Commission for purposes of administering this program.

XI. DEPARTMENTAL ADMINISTRATION

Need

Central leadership and services are vital to the successful administration of the programs administered by the commission.

Objectives

The objectives of this program are to provide a chief executive officer for the commission and to serve the commission in the areas of policy development. This program provides general administrative direction to the operating programs, interpretation of the law, program development, provides services to the state administration and the Legislature and provides liaison and coordination with the segments of higher education. It is also necessary to provide administrative, business and other necessary services for the statewide operation of the student financial aid programs.

Authority

The authority for this program is found in Section 31212 of the Education Code.

General Description

Central leadership and services are divided into tw sections: executive and services.

The director is charged with conducting the affai of the commission, developing, interpreting, and ap plying policies of the commission, providing liaison t the segments of higher education, maintaining com munication with the administration, state agencie and the Legislature, and providing overall centra administrative direction in program development.

The deputy director assists the director with th above tasks when workload demands and provide central administrative direction, program develop ment, and supervision of the work of the commission

The central services provide the processing of cor respondence, telephone, and initial public contact.

Accounting costs, program administration costs an certain clerical costs in the central secretariat are pro rated among the programs administered by the Schol arship and Loan Commission.

[a] Chapter 1112, Statutes of 1973, appropriated $12,828,000 to be available for disbursement starting in 1974–75.

STANDARD FOOTNOTES

The standard footnotes used throughout the Capital Outlay presentation are as follows:

[P] Preliminary plans.
[W] Working drawings.
[C] Construction.
[E] Equipment.
[F] Federal funds.
[X] Signifies year in which action is to be taken when dollar amounts cannot be shown.
[L] Land acquisition.
[a] From State Construction Program Fund unless otherwise indicated.
[b] From General Fund for 1972–73, 1973–74, and 1974–75 unless otherwise indicated.
[d] Unexpended balance reported as expended in prior year.
[g] Expenditures from bond funds not included in overall budget totals.
[h] Neither receipts nor expenditures of federal funds are included in overall budget totals.
[i] A nonrevenue fund. Neither the revenues nor the expenditures therefrom are included in the overall budget totals.
[k] From Capital Outlay Fund for Public Higher Education, unless otherwise indicated.
[m] From Chapter; Statutes of 1971 (First Extraordinary Session).
* This project, as indicated in the analysis, represents the agency's proposal and has not been approved by the Administration.

STATE OF CALIFORNIA SALARIES AND WAGES SUPPLEMENT 1974-75

Submitted by

RONALD REAGAN

Governor

to the

CALIFORNIA LEGISLATURE

1973-74 Regular Session

Salaries and Wages Information

Presented in this volume are the complete and detailed data on approved staffing for state agencies. This information has been published to (1) reduce the quantity of detail in the Governor's Budget and thereby focus attention on the programs and activities of the several state agencies; and (2) simplify the mechanics of budget preparation and printing.

For each state agency the information is reported for the 1972–73 fiscal year on an actual basis and for 1973–74 and 1974–75 on an authorized basis. A more thorough explanation of the content and interpretation of this supplement is given below and on the immediately following pages.

Position Titles

In this volume, positions encompassed by state civil service have been listed by the official class titles as established by the Personnel Board effective July 1, 1973. Positions exempt from civil service have been listed by the official class titles established by (1) statute, (2) The Regents of the University of California, (3) The Trustees of the California State University and Colleges or (4) such other authority as may have been designated by law.

Authorized Positions

For the 1973–74 and 1974–75 fiscal years, positions reported as *authorized* are those which were included in the 1973–74 Budget as approved by the Legislature. Exceptions to this rule are explained by footnote in all cases other than technical adjustments of position classification to more accurately reflect assigned duties.

Changes in Authorized Positions

Proposed Changes to Authorized Positions are included in the Budget Supplements. These changes are proposed by the Executive Branch and are listed under either: (1) Workload and Administrative Adjustments, and (2) Proposed New Positions.

Modifications to these changes as a result of legislative review will be reflected in the Final Change Book.

Expenditures

Estimated salary payments for each group of like positions are reported for the 1973–74 and 1974–75 fiscal years. These estimates represent salary costs on the basis of continuous, 100 percent occupancy of all authorized positions and include the cost of merit salary adjustments where applicable. Exceptions are explained by footnote for those special cases in which the above general rule was not followed. Appropriate adjustments to recognize probable position vacancies and replacement at a lower step in a salary range due to turnover are included in the Budget Supplements as *estimated salary savings*. For the 1972–73 fiscal year *actual* salary expenditures are reported.

Number of Positions

For the 1972–73 fiscal year, the number of positions represents actual man-years (A man-year is equal to 12 months full-time employment of one person—12 persons employed for one month, two persons employed for six months, or any similar combination equal one man-year) of employment expressed in terms of full-time, full-year equivalents counted to the nearest tenth of a man-year.

Positions for 1973–74 and 1974–75 are counted to the nearest tenth of authorized jobs expressed in terms of full-time, full-year equivalents. The only exception is in the case of positions to be established after July 1. In such instances, the positions are counted without adjustment for delayed establishment, e.g., a full-time position to be established January 1 is counted as one position, not as 0.5 position.

Salary Range

The new salary program adopted for 1973–74 was reduced by the Federal Cost of Living Council and resulted in a modified salary program. Salary setting action following the council's decision order came after budget preparation deadlines. The salaries listed are those in effect on June 30, 1973 and do not reflect subsequent salary actions, except for the California State University and Colleges. Initial salary increases are reflected as a lump sum titled "Estimated 1973 Salary Increase." Funds for subsequently approved salary adjustments will be held in reserve for allocation by the Department of Finance. The salaries listed for the State University and Colleges reflect the approved modified salary program in effect on December 1, 1973.

The State of California has appealed the Cost of Living Council's decision order to reduce the salary program authorized by the Budget Act of 1973. Chapter 1136, Statutes of 1973, provides that state employee salary increases, including University of California and California State University and Colleges salary increases, which are not expended during the 1973–74 fiscal year, shall be transferred and retained in the Salary Increase Fund until appropriated by the Legislature.

Information regarding salary increases granted for

specific job classifications after June 30, 1973 are contained in salary schedules published by the various salary setting authorities.

Rates of pay listed under this heading represent salary ranges established by (1) the State Personnel Board for civil service and Maritime Academy classifications; (2) the appointing authority with the approval of the Director of Finance for Non-Civil Service positions; (3) statute; (4) The Regents of the University of California; (5) The Trustees of the California State University and Colleges; (6) the Board of Directors of the Hastings College of the Law or (7) the Chairman of the Judicial Council.

The amounts shown are the (1) minimum and maximum monthly or hourly rates, (2) flat monthly rate, or (3) annual compensation as indicated. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class.

In some classifications and positions with unusual conditions of work or where it is necessary to meet prevailing rates or practices, more than one salary range, or rate or method of compensation has been established within a class. These "alternate ranges" and the criteria for their application are established by the Personnel Board. For classes which have alternate ranges, salaries indicated in this supplement show the minimum step of the lowest range and the maximum step of the highest range. The specific ranges and criteria for instructional positions, other than higher education, are shown at the end of this presentation.

Under the pay plan adopted by the State Personnel Board, the intermediate steps in each salary range have been fixed at a uniform percentage interval of 5 percent. Some exceptions occur in hourly and daily rate ranges. A table of salary ranges in the state service is included at the end of this section. Thus, $421–512 indicates a monthly salary range having steps of $421–$442–$463–$486–$512. Salary ranges for instructional positions and librarians in the California State University and Colleges, and academic positions in the University of California are set forth in Volume II.

Merit Salary Adjustments

Subject to availability of funds, Section 18854 of the Government Code provides that each employee in the civil service receive a merit salary increase of one intermediate step in his salary range during each year in a position provided the employing agency certifies to the Personnel Board that the employee's job performance meets the level of quality and quantity expected by the agency considering the employee's experience in the position.

Special In-grade Salary Adjustments

Classes meeting the criteria prescribed below are eligible for special in-grade salary adjustments; that is, from the first step to the second step of a salary range at the end of six monthly pay periods, unless excluded by a board resolution at the time the specific classification action was taken:

1. All classes with a maximum of $622 or lower.
2. Classes with a maximum of $638 to and including $920, if recruitment is from outside state service.
3. Classes with a maximum of $942 to and including $1,202, as designated by the Executive Officer, when recruitment is from outside state service and the state has experienced recruitment difficulties.
   a. Classes with maximums higher than $1,202 are not eligible.

Merit salary adjustments for employees of the University of California and the California State University and Colleges are determined in accordance with rules established by the regents and the trustees, respectively.

Salary Range Adjustments

In determining the appropriate salary level for a class, a number of factors are taken into consideration by the State Personnel Board:

1. Rates of pay of private employers and of other public jurisdictions for comparable work.
2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty, or responsibility of the work.
3. Conditions of work in the class.
4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of casually employed trades workers and printing trade employees in the state service are established at the hourly wage prevailing in the locality in which the employee is to work. These employees receive all the collateral benefits of premium pay for night work, travel time, overtime pay, hospital, surgical and medical insurance benefits prevailing in comparable employment within the locality.

Casually employed trades workers working for the state do not receive the same benefits of vacation, sick leave and retirement that permanent state employees receive. However, the state does pay into vacation and retirement funds where such benefits prevail in the locality of work.

Printing trades employees receive all of the benefits enjoyed by other state employees including an average of 11 holidays a year.

The salary ranges reported herein are those which had been approved by the appropriate salary fixing authority effective June 30, 1973, except for California State University and Colleges. Salaries fixed by statute are those established in Government Code Sections 11550 to 11563 inclusive and as modified under provisions of Items 86, 87 & 88 of the Budget Act of 1973. Statutory salary provisions for judges and

justices of courts of record are included in Government Code Sections 68200 to 68203.

Section 12, Article V of the Constitution prohibits a change in the salaries of the Governor, the Lieutenant Governor, the Attorney General, the State Controller, Secretary of State, Superintendent of Public Instruction and the State Treasurer during their current term in office. In accordance with the provisions of the Constitution, changes in the salary of these elected officers became effective January 4, 1971, concurrent with the beginning of their new term of office.

ABBREVIATIONS USED IN SALARY SCHEDULES

In order to conserve printing space in the Salaries and Wages area, a series of abbreviations is used.

NOTE—Abbreviations are not punctuated; i.e., there is no period (.) at the end. Multiple word abbreviations are not punctuated or have spaces between the letters; e.g., "electronic data processing" is "EDP" (not "E.D.P." or "E D P").

Salary Schedules for Instructional Positions—Other Than Higher Education as of July 30, 1973

(Ranges and Criteria of Application for Teachers)

Range	*Steps*				
A	965	1013	1064	1117	1173
B	1013	1064	1117	1173	1230
C	1064	1117	1173	1230	1291
D	1117	1173	1230	1291	1356
E	1173	1230	1291	1356	1424
F	1230	1291	1356	1424	1496

Criteria for Range Determination	*Academic (Preparation)*	*Vocational (Preparation)*
Range A	Academic preparation totaling less than a Bachelor's degree.	
Range B	Possession of a Bachelor's degree.	
Range C	Possession of a Bachelor's degree plus 12 upper division or graduate units which were not counted toward the degree.	Three years' experience as journeyman craftsman.
Range D	Possession of a Bachelor's degree plus 24 upper division or graduate units which were not counted toward the degree.	Three years of journeyman experience with graduation from high school.
Ranges E and F	Used only for "incentive increases" when a teacher receiving less than Range F completes at least 6 units in college level courses approved by his department and taken after appointment. He shall then be entitled to advance to the corresponding step in the next higher salary range for the class, and such an advance shall be known as an "incentive increase."

* Detailed position shown on pages 322–365 of the Salaries and Wages Supplement.
This presentation of authorized positions is at variance with the plan of organization presented to the I973 Legislature.
The following adjustments are necessary to reconcile to that report:
[a] Three positions previously shown in Legal Affairs are in Patient Benefit and Accounts Section, Administrative System.
[b] 21 positions previously shown in Community Services Section, Treatment Systems, are in the Administrative System.
[c] 32.9 positions previously shown in the Administrative System were placed in the Benefit Payments Program, Financing System to facilitate the orderly transfer of that program to the Department of Benefit Payments.
[d] 12 positions from the Quality System and 5 positions from the Administrative System are in the Preventive Medical Services Program Protection System.
† Salary ranges are those in effect as of June 30, 1973.
